Message: Dear John,

My wife Tania and I are extremely impressed with your knowledge and attention to detail when it came to the type of home we were searching for. I brought to you five separate properties off the internet that I thought had the best potential for us to purchase. The surprise was when you showed us one of the homes you picked out that you thought we would like. Well you guessed right. The home you helped to pick out for us was WAY better than any of the ones that we pulled off the internet alone! Good job, and we look forward to working with yo again some time!

Sincerly, Derek and Tania
